

**Technical sheet**

N° 503 Rev. 0

Updated 06/11/2017

**Ref. TBH6235 TAMPER BOX**

**Application** Self-adhesive tape anti-tampering, which guarantee the security of the packaging. It guarantees the sealing and prevents tampering by releasing a security text (abierto/ouvert/opened/geoffnet) when trying to open the packaging. This tape is particularly advised for markets like luxury and high valuable products, tobacco industry, pharmaceutical and medical industry, transports and logistics, and in general for all field where the integrity of the packaging is indispensable.

**Backing** Bi-oriented polypropylene film 35 µm thickness

**Adhesive** Adhesive 62  
Solvent free adhesive composed by thermoplastic rubber, hydrocarbon resins, plastifiers and antioxidation agents. Available only in the transparent (TR) version.

**Print** Coloured (CO)  
Reverse flood coated print (SC)

Characteristic	Unit	Standard value
Backing thickness	µm	35
Tensile strength	kg/cm	6,2
Elongation	%	145
Total thickness	µm	53
Adhesion to steel	g/cm	NA

**Notice** For optimum performance the stock should be rotated and used within 6 months. Where possible the goods should be stored at room temperature, between 14°C and 28°C. Damp storage conditions should be avoided.
